RE: Draft Ground Water Discharge Permit
and Statement of Basis for Kennecott
Large Reservoir; Ground Water
Discharge Permit No. UGW350006

Dear Mr. Van Dyken:

Attached please find the draft permit and statement of basis for the revised ground water discharge permit for the Kennecott Large Reservoir. As we have discussed, the revised permit incorporates the new Zone 2 portion of the reservoir along with the de-silting basin into one permit with the existing Zone 1 portion of the reservoir.

Would you please review the permit and statement of basis and advise us at your earliest convenience of anything that Kennecott would desire to modify. We would like to initiate the 30 day public comment period for this permit as soon as possible. Thank you for your attention to this important matter.

Sincerely,

Larry J. Mize, P.E., Manager
Ground Water Protection Section
